IMPRESS

This beautiful new Rose, raised by Alex. Dickson & Son, and tested in this country for two years by Robert Scott & Son, Sharon Hill, Pa., has proved a first-class all the year forcer. It is of strong growth, of free flowering habit with glossy bronze green foliage and exceptionally distinct in its combination of colors. The bud is cardinal red, shaded orange, and as the flower develops the open flower is a beautiful salmon cerise. Petals 40 to 45. An outstanding characteristic of the variety is its lasting qualities.

Tobacco-Tex is 100 per cent tobacco and is made from the highest grade of northern grown tobacco stems. The tobacco is shredded by our own special process.

Tobacco-Tex is an excellent fertilizer and contains much more available plant food than stable manure. Unlike manure it is free from weed seeds, dirt and harmful larvae of insect pests. We do not know of any product that will sweeten the soil and eradicate the insects as Tobacco-Tex.

Price, \$32.00 per ton (2000 lbs.)

Tobacco Dust. A good grade of Tobacco Dust, coarse and fine together, well screened, all large pieces of stems, wood, etc., removed. 2000 lbs. \$5.00
